

Scargill CE Primary School

This summer, we are running a two different geography challenges!

Pictures from around the world

As the summer holidays approach, we are aware many people may go on adventures and explore different places. Therefore, we want to see how many different countries, cities and places the children of Scargill Primary School can visit over the summer holidays. Please can children bring a photo of their destination with them in it so we can pin them to a whole school map. We look forward to seeing the amazing places you visit.

Human and Physical Geography Bingo!

Whilst exploring different places during the 6 weeks holiday, you will stumble across different physical and human features. Below is a bingo sheet for you to tick off the different features you have seen and write where you saw/visited them.

A Beach

A Hill/Mountain

Shops

A Famous Landmark

A River

A New City Explored
