Dear Parent/Carer

Road Safety Workshops – Key Stage 2

Improving road safety on our roads is one of Derbyshire County Councils top priorities, as part of the Road Safety Team's commitment to reducing casualties in your area, today your child took part in a road safety workshop which was delivered by their Road Safety Officer.

The school journey is a perfect opportunity for children to learn about their local environment and gain independence, as your child makes the journey from home to school it is also important that they keep themselves safe. Children learn by watching adults, so help set a good example by taking care whilst crossing the road or travelling in the car, remind your child of these basic road safety messages.

- Always Stop, Look and Listen whilst crossing the road
- Always find a safer place to cross the road
- Always hold your child's hand whilst walking and crossing the road
- Always wear a seatbelt, even on short journeys
- Never talk on a mobile phone whilst crossing the road
- Always take out your earphones whilst crossing the road

If you would like any further information or advice on road safety matters, please do not hesitate to contact the Road Safety Team on 01629 538058 or email roadsafety@derbyshire.gov.uk

Yours sincerely

The Road Safety Team
Derbyshire County Council
