

Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Scargill CE Primary School
Number of pupils in school	341
Proportion (%) of pupil premium eligible pupils	12%
Academic year/years that our current pupil premium strategy plan covers <i>Year 2 of a 3 year plan</i>	2021-2024
Date this statement was published	December 2022
Date on which it will be reviewed	July 2023
Statement authorised by	Malc Hetherington
Pupil premium lead	Cheryl Benn
Governor / Trustee lead	Sam Marshall

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£59,628
Recovery premium funding allocation this academic year	£6,380
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£66,008

Part A: Pupil premium strategy plan

Statement of intent

At Scargill school, we strongly believe in developing the whole child. It is our aspiration that all pupils, regardless of their background or the challenges they face, are able to meet their full potential and to be happy, well-rounded individuals who are able to thrive in all areas of their life. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve these goals – including those who are high attainers.

At the heart of everything we do are the children. We will fully consider the needs of the individual child and groups of children. The strategies outlined in this plan are not exclusive to disadvantaged but are all encompassing to our school ethos.

The children's wellbeing is core to our approach. Without a solid foundation of emotional and social skills children find learning far more challenging. The Thrive programme, which is embedded in our school, closes the gap for vulnerable children in a number of areas such as, self-confidence, relationship building, behaviour, attainment and attendance.

High-quality teaching is paramount to all children's success. Whilst our strategy focuses on the areas disadvantaged pupils require the most support it will also benefit our non-disadvantaged pupils. High quality teaching is the most effective way of closing attainment gaps and reaching high aspirations. Our plan clearly demonstrates training which will be put in place to further support teaching staff.

Our approach is child led and will be responsive to the children's needs. These will be based on robust diagnostic assessments and not assumptions which can be made. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are supported to develop their social and emotional development.
- to support children and their families to ensure their wellbeing.
- be proactive in our support and intervene early.
- have a whole school approach in which all staff are focusing on closing the gaps for disadvantaged pupils.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<p>Through our Thrive profiling and sessions the social and emotional needs of the children have been flagged as an area for development. This has further been reinforced through discussions with class teachers, support staff, parents and the children themselves. Whilst these have been a target on previous plans, the impact of school closures and lockdowns has set back our work and increased the issue for some. These is due to children being unable to access all of the support we have in school and that provided by other enrichment activities they may have taken part in, which were forced to close. The removal of these support networks has had a significant impact on our disadvantaged pupils. Through our Thrive profiling 40 children are receiving additional support for social and emotional needs with 25% being from the disadvantaged group. The Personal, Social, Health & Emotional development of our disadvantaged children is supported well through the continued use of the Jigsaw Programme.</p> <p>As a school we are now able to offer a full programme of enrichment activities for all children to attend after school. Although teachers always offer places to disadvantaged pupils first the uptake from disadvantaged pupils is not to a level we would aspire to. Of the 45 pupil premium children in school on average, 1 disadvantaged child signed up to each club.</p>
2	<p>In line with national studies, the welfare and wellbeing of our disadvantaged pupils has been impacted by the global pandemic (to a greater extent than for other pupils). Since the full opening of schools there has been an increased amount of support required to support children and their families. Through our formative and teacher assessments at the end of the last academic year it is clear to see the impact this has had on the children's progress and attainment, especially in writing and maths and early reading.</p>
3	<p>Through assessments, teacher discussions and discussions with children, the language development of disadvantaged pupils has been highlighted as not in-line with their peers. This is evident from R-Y6. Gaps in knowledge of key vocabulary is noticeable greater in our disadvantaged pupils than their peers. This has a substantial impact on the progress of children.</p>
4	<p>Through looking at end of year data and teacher discussions, the attainment of our disadvantaged pupils is not in-line with their peers. This is an area which has been improving but still needs development especially in writing with 48% of disadvantaged pupils meeting expected standard and 2% greater depth (2020-21). Whole school data at the end of KS2 showed that 74% met the expected standard and 12% greater depth in writing.</p>

5	<p>Attendance data for September 2021 shows 91% attendance of PP children compared to 98% for non-PP children in the same month. This is a decrease in attendance compared with the same month in 2020 which showed 97% attendance for PP children in September 2020 and 98% for non-PP children. Our school average for attendance for the year 2020-21 was 97.54%</p> <p>From this academic year, Autumn Term 1 (2021-2022) of the persistent absence attendance letters sent to parents, 77% have been for disadvantaged pupils.</p>
6	<p>Financial impact means that some disadvantaged families are unable to afford to make contribution needed for extra curricular activities, trips and residential.</p>
7	<p>Teacher observation has seen that often disadvantaged pupils can lack self-motivation. A development of pupil's self-regulated learning would give children greater independent skill to achieve better. Self-regulated learning can be broken into three essential components:</p> <p>cognition – the mental process involved in knowing, understanding, and learning</p> <p>metacognition – often defined as 'learning to learn'; and</p> <p>motivation – willingness to engage our metacognitive and cognitive skills.</p> <p>Peer tutoring would also develop motivation</p>

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
<p>To improve the social and emotional skills of all children, particularly disadvantaged pupils.</p>	<p>Through Thrive profiling an improvement of children's social and emotional skills will be seen.</p> <p>Pupil voice will demonstrate an improvement of skills.</p> <p>Teacher observations</p> <p>An increase in uptake of extra-curricular activities.</p>
<p>To achieve and sustain improved wellbeing for all pupils in our school, particularly disadvantaged pupils.</p>	<p>The Whole School Approach Wellbeing Mapping Tool shows improved ratings.</p>
<p>Improved oral and language skills and key vocabulary among disadvantaged pupils.</p>	<p>An improvement will be seen through teacher observations of participation in</p>

	<p>lessons and use of language used in work. This will be triangulated with books scrutiny and formative assessments.</p>
<p>Improved writing attainment among disadvantaged pupils.</p>	<p>End of year teacher assessments will show a year on year improvement in the amount of disadvantaged pupils meeting age level expectations to be at least in line with National Average.</p>
<p>Improved attainment of greater depth standard among disadvantaged pupils.</p>	<p>End of year teacher assessments show a year on year improvement in the disadvantaged pupils achieving greater depth standard in reading, writing and maths by 2024/2025.</p>
<p>To achieve and sustain improved attendance for all pupils particularly our disadvantaged pupils.</p>	<p>Sustained high attendance by 2024/25 demonstrated by:</p> <ul style="list-style-type: none"> • the overall attendance rate for all pupils being greater than 97% and the attendance gap between disadvantaged pupils and their non-disadvantaged peers being diminished. • the number of pupils who are being persistently absent being below 8% and the figure among disadvantaged pupils being no more than 3% lower than their peers.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 11,921

Activity	Evidence that supports this approach	Challenge number(s) addressed
Jigsaw £0	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers): EEF Social and Emotional Learning.pdf (educationendowmentfoundation.org.uk)	1
Nuffield Early Language Intervention (NELI) Training £180	There is a strong evidence base that suggests oral language interventions, including dialogic activities such as high-quality classroom discussion, are inexpensive to implement with high impacts on reading: Oral language interventions EEF (educationendowmentfoundation.org.uk)	3
Purchase of Rising Stars Assessments £4,050	Standardised tests can provide reliable insights into the specific strengths and weaknesses of each pupil to help ensure they receive the correct additional support through interventions or teacher instruction: Standardised tests Assessing and Monitoring Pupil Progress Education Endowment Foundation EEF	4
Staff training on high quality feedback £6,696	Feedback EEF (educationendowmentfoundation.org.uk) Teacher Feedback to Improve Pupil Learning EEF (educationendowmentfoundation.org.uk)	4
Purchase of a DfE validated Systematic Synthetic Phonics programme (Little Wandle) to secure	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils:	4

stronger phonics teaching for all pupils. £995	Phonics EEF (educationendowmentfoundation.org.uk)	
---	---	--

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 28,200

Activity	Evidence that supports this approach	Challenge number(s) addressed
Additional phonics sessions targeted at disadvantaged pupils identified through Little Wandle assessments. £26,000	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils: Phonics EEF (educationendowmentfoundation.org.uk)	4
National tutoring programme. Focusing on R, W, M & Spag through Shine £0	Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind. Small group tuition Toolkit Strand Education Endowment Foundation EEF	4
Nuffield Early Language Intervention (NELI) sessions £2,200	There is a strong evidence base that suggests oral language interventions, including dialogic activities such as high-quality classroom discussion, are inexpensive to implement with high impacts on reading: Oral language interventions Toolkit Strand Education Endowment Foundation EEF	3

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 25,925

Activity	Evidence that supports this approach	Challenge number(s) addressed

<p><i>Small group and individual Thrive</i> £10,843</p>	<p>There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g., improved academic performance, attitudes, behaviour and relationships with peers): EEF Social and Emotional Learning.pdf (educationendowmentfoundation.org.uk)</p>	1
<p>Embedding principles of good practice set out in the DfE's Improving school attendance: support for schools and local authorities - GOV.UK (www.gov.uk) advice. £10,450</p>	<p>The DfE guidance has been informed by engagement with schools that have significantly reduced levels of absence and persistent absence. Parental engagement EEF (educationendowmentfoundation.org.uk)</p>	1, 2 & 5
<p>Attendance at after school sports clubs £1332</p>	<p>Opportunity to increase physical activity and social skills which are good for mental health and wellbeing. Physical activity EEF (educationendowmentfoundation.org.uk)</p>	1
<p>School uniform cost and book bag cost (two jumpers and a book bag for children when initially awarded PP funding. Support financially to enable access to trips/residential £2500</p>	<p>We know from pupil voice that all children want to feel included in school life and we feel that those costs should not prevent children from having the correct school and PE clothing or wanting to take part in trips/residentials. School uniform EEF (educationendowmentfoundation.org.uk)</p>	6
<p>Contingency fund for acute issues £800</p>	<p>Based on our experiences, we have identified a need to set a small amount of funding aside to respond quickly to needs that have not yet been identified</p>	

Total budgeted cost: £ 66,046

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

The academic year 2021-2022 was the first year of our current three-year pupil premium strategy. The mental health and wellbeing target is still a primary concern for all of our pupils. Our school is a Thrive school and our children's needs are met through various layers of this approach. Over the course of the past year there has been an increased need for this support which is met through both our Thrive class, small group and 1:1 sessions, alongside our Jigsaw programme for PSHE. Many of the children attending Thrive sessions (either 1:1 or small group) are from our disadvantaged children. This number is set to rise as we consider the number of disadvantage children needing restorative time and what support they need. Loss training has also been provided to staff to further support children in this area.

Rising stars assessments have provided analysis and targeted support for our children -many of our disadvantaged pupils attended small group sessions looking at focussed gaps in learning which were identified through the assessments in reading, maths and grammar. These are delivered by experienced teachers to small focus groups. This where we have allocated our recovery funding to ensure high quality teaching is provided to support our children.

Little Wandle has had a positive impact on our children's phonics and reading skills. 95% of our children passed the phonics screening test. Of our disadvantage pupils 89% of the children passed.

Attendance continues to be an area of concern for our disadvantage pupils. We have a new policy in place for attendance, support from the EWO and an assigned attendance officer. Last year 83% of pupil premium children had attendance below 96%. Through support for the child and those at home we endeavour to improve the attendance of our pupils.

There was clear upward trend in the number of PP children attending clubs over the course of last year. This could potentially be due to the increased number of families taking up the offer of funding for the club.

Data for Autumn Term:

- Overall, 14% of all children attended a club
- 6% of PP children attended a club

Data for Spring Term:

- 38% of all children attended a club
- 21% of PP children

Data for Summer Term:

- 66% of all children attended a club
- 52% of PP children

33% of disadvantage pupils took up the offer of a funded club.

We aim to allow all of pupil a rich and varied curriculum which includes educational visits and residential. To ensure our disadvantage families do not miss out on these opportunities we offer full and part funding for these visits. 39% of our disadvantaged families received full or part funding. We expect these numbers to increase due to the current cost of living crisis.

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details
How did you spend your service pupil premium allocation last academic year?	
What was the impact of that spending on service pupil premium eligible pupils?	

Further information (optional)

Use this space to provide any further information about your pupil premium strategy. For example, about your strategy planning, or other activity that you are implementing to support disadvantaged pupils, that is not dependent on pupil premium or recovery premium funding.
